

# Admissions

- **What are the eligibility criteria for admission?**
- For B.Tech: Passed 10+2 with Physics & Mathematics as compulsory subjects, along with one of Chemistry/Biology/Computer Science/Biotechnology, and minimum ~45% aggregate (42.75% for SC) in Haryana.
- For B.Tech (Lateral Entry): Diploma in Engineering/Technology (3 years or more) or B.Sc degree with Math, with minimum ~45% aggregate (42.75% for SC) for entry into 2nd year.
- For BBA: 10+2 with ~45% aggregate.
- For M.Tech (Textile Technology): B.E./B.Tech in Textile Technology/Textile Chemistry or equivalent, with minimum ~50% aggregate (45% for SC) and valid GATE for part seats.
- For MBA: Bachelor's or Post-Graduate degree in any discipline with at least 50% marks.
- **How can I apply for admission?**
- Apply online via TIT&S website for B.Tech, BBA, M.Tech, MBA, B.Tech LEET.
- For engineering (B.Tech) admissions you'll typically participate in the state counselling

through Haryana State Technical Education Society (HSTES) based on entrance/JEE Main etc.

- Ensure documents like scanned passport-size photo, 10+2 mark sheet, identity proofs are ready.
- **What is the application deadline?**
- The precise deadline varies by session. For example, a TFW/EWS seats advertisement noted a deadline of 4 Sept for 2024-25 intake.
- Check current year prospectus on TIT&S website for exact dates.
- **Are there any entrance exams required?**
- Yes: For B.Tech, valid score in JEE Main or as per HSTES counselling rules.
- For lateral entry (B.Tech LEET): State-level LEET test when required.
- For M.Tech: Valid GATE score preferred for 50% seats.
- **Can I apply for multiple programs at once?**
- The website does not explicitly prohibit applying to multiple programmes, but you should check each programme's specific admission rule. If you qualify multiple, you may apply for more than one programme (e.g., BBA + B.Tech) but

you'll need to meet each eligibility and follow each application process accordingly.

## Courses and Programs

- **What courses does the college offer?**
- UG: B.Tech in several specialisations such as Textile Technology, Textile Chemistry, Fashion & Apparel Engineering, Computer Engineering, Mechanical Engineering, Electronics & Communication Engineering.
- UG: BBA (Business Administration)
- PG: M.Tech (Textile Technology)
- PG: MBA (Business Administration)
- **Are there any online or distance learning programs?**
- I did not find a clear listing for fully online or distance programmes on the official site. The programmes listed appear to be full-time, on-campus.
- If you're interested in distance/online mode, you may contact the admission helpline for latest updates.
- **How long does each program take to complete?**
- B.Tech (regular): 4 years.
- B.Tech (Lateral Entry): 3 years (for entry into 2nd year) as typical.

- BBA: Standard undergrad duration (typically 3 years, though check with institute)
- M.Tech: 2 years.
- **Can I transfer from another college?**
- For lateral entry: Yes, if you hold a relevant diploma or B.Sc with required maths etc, you can join 2nd year of B.Tech.
- For regular first-year transfer: The rules may depend on state/board/university and vacancy. It's best to contact the institute and check the current policy.
- **Are there any short-term or certificate courses available?**
- I did not find a specific mention of short-term certificate courses on the publicly available webpages. If you're interested, checking the institute's "Continuing Education" or "Professional Certificate" section (if any) or contacting the institute is recommended.

## Fees and Scholarships

- **What is the fee structure?**
- According to various sources: B.Tech fees for entire 4 years range approx ₹3.25 lakh – ₹4.88 lakh (tuition only) depending on programme and category.

- An example: Tuition + development fund in one source for B.Tech: ~₹4.88 lakh total.
- Hostel fee (boys/girls) – around ₹17,800 (non-AC room with mess) in one set of data.
- Because fees vary by course, category and year, always check latest official fee schedule on TIT&S website.
- **Are scholarships available?**
- Yes, scholarships are mentioned (e.g., for SC candidates there is relaxation in eligibility; reference to scholarships as per AICTE rules for M.Tech).
- Additionally, sources mention merit-based scholarships and SC/ST scholarships (e.g., details of waiving part of tuition for SC/ST) in fee & course overview.
- **Can I pay fees online?**
- The website indicates online admission and forms, but explicit reference to online fee payment is not clearly listed on the pages I checked. It is likely but you should confirm with TIT&S.
- **Are there any financial aid options for students?**
- Financial aid is possible via scholarships and possibly state-schemes for reserved categories;

details may be available in the institute's "Fees & Scholarships" page or state government portals.

- For example, the institute site states "Scholarship as per the AICTE Rules" for M.Tech.
- **Is there a refund policy for fees?**
- I did not locate a clearly published refund policy on publicly available pages. It is advisable to check the institute's admission brochure or contact the admission office to understand refund/withdrawal policy.

## Campus Facilities

- **Does the college provide hostel accommodation?**
- Yes: There are hostel facilities for boys and girls. For example, hostel fees data show boys' and girls' hostels with non-AC rooms and mess.
- **Are there sports and extracurricular facilities?**
- Yes: The institute website mentions laboratories, campus infrastructure, student activity in departments. Although detailed sports facilities aren't shown in the snippets, typical engineering institutes like this have such amenities. (No specific list found)

- **Is Wi-Fi available on campus?**
- I did not find explicit confirmation in the sources I checked that Wi-Fi is available campus-wide. In one student review, it said smart boards were only in some classrooms and WiFi facilities “is not provided to students”.
- Recommendation: Verify with the institute directly for current WiFi availability.
- **Are there medical facilities on campus?**
- The publicly available pages did not show detailed information about on-campus medical facilities. You should check the institute’s “Student Support” or “Facilities” section or ask during admission.
- **Is transportation provided for students?**
- I did not find a specific statement about institute transport (bus services) in the sources I checked. It would be best to ask the admission office about available transport facilities (e.g., college bus routes), especially if commuting from nearby towns.

## **Examination and Results**

- **How are exams conducted?**
- The institute uses semester system (for example, the syllabus page for Dept of Textile

Technology shows 1st & 2nd year structure).

- Typically, written exams and practicals are held each semester; specifics should be available in the academic calendar/brochure.
- **When are results declared?**
- I did not find the exact timeframe for result declaration on the sources checked. Usually it is a few weeks after exams. You should check the student portal or contact exam cell.
- **Can I apply for revaluation or recounting?**
- The publicly available information does not clearly mention the policy for revaluation/recounting. Check the institute's academic regulations or contact the exam cell.
- **How can I access my grade or transcript?**
- Transcripts/grades are likely available through the student portal or by application at the exam office; specifics are not published in the sources checked. Contact academic/exam office for procedure.
- **Are there supplementary exams for failed subjects?**
- I did not find explicit mention of supplementary exams in the sources reviewed. Usually engineering colleges have backlog or

improvement exams; verify with the institute for this specific policy.

## Student Support

- **Is career counseling available?**
- Yes: The institute website mentions industrial training of six-months and that placement cell engages with industries.
- **Are there mentorship programs?**
- I did not locate a specific “mentorship programme” detail in the sources reviewed. You may check with student affairs department.
- **Can students participate in internships?**
- Yes: For example, the institute mentions industrial training in final semester for engineering students.
- **Is there a grievance redressal system?**
- I did not find explicit information about a grievance redressal system in the sources checked. You should check the institute’s “Student Handbook” or ask academic office.
- **Are there clubs and student organizations?**
- While the sources show various departments and activities, I did not find a detailed list of clubs/organizations. You may inquire at campus about student activity cells and student

organizations.
